

Detail Product of PT Listrikum

String Inverter

Spesification

The expert cost saver for high-yield, commercial plants Peak performance in a significant reduced specific price the new SMA Sunny Tripower TL Economic Excellent is the next logical step in the development of the Sunny Tripower series in terms of achieving an optimum price-performance ratio. It brings with it a considerable reduction in investment costs, while it can be guarantee exceptionally high yields with an efficiency of 98,5 %. Hence the Sunny Tripower is the ideal inverter solution for uniformly structured PV plants on the medium to very large scale. The focus is on the essential and meets all requirements including reactive power provision, grid support and grid management integration up to 60 kW. Economical -Maximum efficiency 98,5% - OptiTrac for best MPP tracking efficiency -Active temperature management with OptiCool -Bluetooth communication Simple -Three-phase feed-in -Cable connection without tools -SUNCLIX DC plug-in system Flexible and future-proof -DC input voltage up to 1000V -Integrated grid management functions -Reactive power capability
